SELECTED CONSULTING EXPERIENCE

- Assisted expert witness in a gas price arbitration between European gas producers and a Central Asian energy supplier. Estimated the adjustment to the price formula in a long-term contract.
- Assisted expert witness in a commercial dispute between a European gas supplier and a Eurasian gas producer. Estimated damages arising from under-delivery of gas.
- Assisted expert witness in a commercial dispute between a European gas producer and a North African gas producer. Estimated damages to equity holders of a natural gas exploration and development project as a result of a delay in production.
- Assisted expert witness in a gas price arbitration between a Middle Eastern LNG producer and a Spanish energy supplier. Assessed changes in the Spanish gas market to propose an adjustment to the price formula in a long-term LNG contract.
- Assisted expert witness in a gas price arbitration between a European gas producer and a French energy supplier. Estimated the adjustment to the price formula in a long-term contract in France.
- Assisted expert witness in an investor-state dispute between a European oil and gas exploration company and an Eastern European country. Quantified damages following a change in the tax regime.
- Assisted expert witness in a commercial dispute between a European manufacturer and a European chemical producer. Analysed required reimbursements in relation to the EU Emissions Trading System.
- Assisted expert witness in a commercial dispute between European gas producers and a European infrastructure company. Calculated lost profits in relation to the termination of an oil transportation contract.
- Assisted expert witness in relation to a preliminary assessment used in pre-arbitration negotiations of the price review of a long-term LNG contract. Advised LNG buyer in Asia on current LNG market trends and target price during price review negotiations. Conducted contract benchmark analysis using third party data.
